MUSIC SUMMARY

VISION

DON SIMON is a rising DJ from Switzerland, delivering raw energy through Trap, Rage, New Wave and early 2000s anthems. His fast and powerful sets are unforgettable, bringing exactly what today's scene has been missing.

With over 10,000 followers across all platforms and more than 1.4 million video views, he has built a passionate community that lives and breathes Hip-Hop and Trap. His message is clear: Trap is alive and thriving and he is the proof.

SOUND

As a true hip-hop enthusiast, he fuses the sounds of Don Toliver, Future, Kendrick Lamar and Travis Scott with timeless anthems from artists like A\$AP and Chief Keef, creating explosive performances that set every dancefloor on fire. Whether behind the decks or on the mic, his charisma and instinct for the crowd turn every set into an experience.

DON SIMON isn't just spinning, he is building a movement.

TECHNICAL RIDER

He can perform perfectly on any setup that supports stems. If the venue or location does not offer this option, he will bring his own DDJ-XP2 and connect it to the provided setup. His preferred software is Serato DJ, and he will also bring his own laptop stand. He can also play via USB if desired, though Serato remains his preference.

That's all, straightforward and uncomplicated.
