## TRAP. TRAP. TRAP

DON SIMON is one of the leading Trap and Rage DJs in Switzerland. What started as a vision to bring Trap back has quickly grown into a national brand centered around the music of Playboi Carti, Ken Carson, Travis Scott, and the new wave of high energy rap. His explosive sets have taken him far beyond Switzerland to some of Europe's hottest clubs, including Toy Room x Pacha in Poveglia, Mach 1 in Nürnberg, and St. Trop in Lloret de Mar.

## VISION

His mission to bring the sound of the youth into bigger clubs is also reflected in his Zurich based Trap label, LEGACY, now one of the biggest Trap and Rage party brands in Switzerland. As a frequent collaborator with Euroragers, DON SIMON continues to push his movement beyond the DJ booth through his events, community, and sold out merchandise drops.

---

# TECHNICAL RIDER

---

He can perform perfectly on any setup that supports stems. If the venue or location does not offer this option, he will bring his own DDJ-XP2 and connect it to the provided setup. His preferred software is Serato DJ, and he will also bring his own laptop stand.

That's all, straightforward and uncomplicated.
